

FOR YOUTH DEVELOPMENT®
FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY

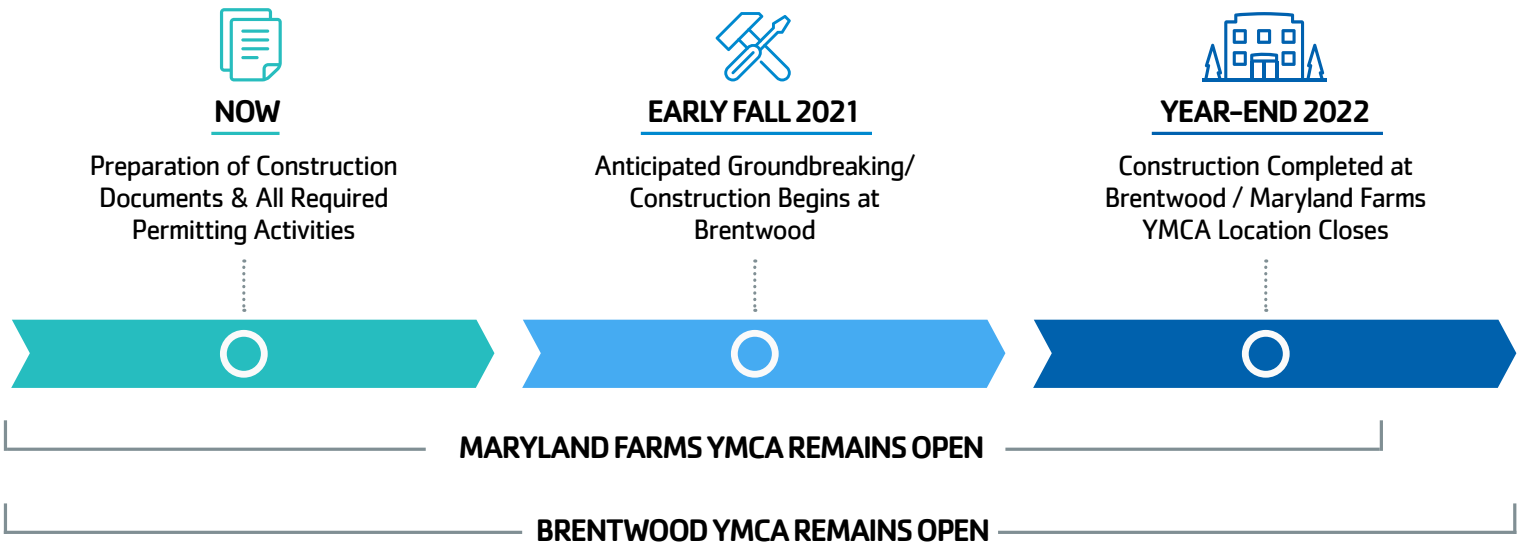

Dear Neighbor,

As a non-profit charitable organization, it has been a privilege to serve our Brentwood neighbors for over 30 years.

As we continue to make progress on our One Brentwood strategy that will eventually result in an expanded and enhanced flagship YMCA on Concord Road, we want to keep our neighbors updated about the next steps in this process.

On February 1, we presented to the Brentwood Planning Commission the conceptual Master Plan for a renovated and expanded Brentwood Family YMCA. This will be the first of many steps in gaining all the approvals necessary to begin construction.

In the coming weeks and months, we expect to have several more meetings and work sessions with city officials as we refine our plans and work together to address common concerns like increased traffic and intermittent storm water issues. Sometime this spring or early summer, we will present our final project plans to the Planning Commission for approval. In terms of a high-level timeline, here's what you can expect in the coming months:

To learn more about the project and the rationale behind combining our Maryland Farms and Brentwood operations, and to see answers to Frequently Asked Questions, we'd encourage you to visit the One Brentwood section of our website:

ymcamidtn.org/locations/brentwood/renovation

In addition, we've set up a dedicated email inbox to accept questions and feedback: onebrentwood@ymcamidtn.org.

I have included my direct contact information below. Please feel free to reach out to me at any time about this project or anything related to being a valued neighbor.

With thanks,

Steve Saxton
District Executive Director, Brentwood Family YMCA
